Sorry to intrude on your day off, Mike. I would feel more comfortable if both of us were on the line to hear what Glencore says. I'll set up a conference line for us.

Subject: Anaconda/CFAC

Andrew,

Mike Cirian and I would like to have a conference call with you and your client to discuss Calbag Resources' November 28, 2017 letter to Mr. Cirian (attached). We are of the view that the testing and disposition of salvaged materials is the responsibility of the property owner, and are not inclined to get involved in a potential dispute between Glencore/CFAC and its contractor. However, based on the sampling results we have reviewed, it appears that Stockpiles 1 and 1A may be of concern due to the presence of leachable fluoride.

We understand that Glencore/CFAC and Calbag Resources have a meeting scheduled for next week, and would like to discuss, in particular, Glencore/CFAC's plan for the disposition of Stockpiles 1 and 1A before EPA responds to Calbag's letter. Please let me know if you are available for a call on Thursday or Friday of this week, or early next week.

Thank you.

Mark
